● WORK EXPERIENCE

Web UI Developer

Globant | Dec 2025 – Present

- Contributing to enterprise software development projects for the airline industry within distributed agile teams.
- Developing modern web applications using NextJs, and modern frontend development practices.
- Applying software engineering best practices focused on maintainability, scalability, testing, and code quality.
- Participating in collaborative development workflows, code reviews, and technical discussions.
- Working in enterprise-level environments following agile methodologies and high-quality development standards.

Senior Frontend Developer

Inchcape Digital | November 2022- June 2025

- Develop and maintain scalable, multilingual web applications for various automotive brands worldwide, ensuring adaptability to diverse markets and environments.
- Build modern interfaces with React.js, TypeScript, and Tailwind CSS, focused on responsive, accessible user experiences.
- Integrate with systems like Akeneo PIM to manage multilingual content and product catalogs.
- Collaborate with international teams using agile methodologies.
- Implement pixel-perfect designs based on Figma mockups in coordination with UX/UI teams.

Trainee Frontend Developer

Academia Geek | March 2022 - July 2022

- Development of web applications according to the guidelines requested in terms of UX/UI.
- Integration of technologies and libraries in ReactJs projects.
- Implementation of agile methodologies in the formulation of web development projects.
- Creation of Interfaces through the use of HTML, CSS, and Javascript Vanilla.

● EDUCATION

Master's Degree in Software Engineering (In Progress) | 2025 – Present

Universidad de Los Andes

Relevant coursework:

- Software Architecture Principles
- Agile Software Engineering
- Automated Testing
- Web Software Engineering
- Mobile Software Engineering
- Cloud Software Development
- Agile Development Processes

Professional Degree in International Business | Santo Tomás de Aquino University | June 2021

● COMPLEMENTARY TRAINING

Frontend Web Development Bootcamp — MAKAI (2022)

- 300-hour intensive web development program focused on React.js and Design Thinking.

React, NodeJS, Express & MongoDB - The MERN Fullstack Guide Course | UDEMY 2024

IT Troubleshooting Skill Training | UDEMY 2024

React JS +Next JS 14 | UDEMY 2024

Emerging Leaders Training | DDI 2023

● SKILLS

Frontend Development: React.js, Next.js, TypeScript, JavaScript (ES6+), Angular, HTML5, CSS3, Tailwind CSS

Testing & Quality Assurance: Jest, Cypress, Playwright, Pixelmatch, Automated Testing, End-to-End Testing

Software Engineering & Architecture: Software Architecture Principles, UML, Design Patterns, MVC/MVVM, CI/CD Fundamentals, Agile Methodologies

Tools & Platforms: Git, GitHub, GitHub Actions, Postman, Figma

Backend & Additional Technologies: Node.js, Express.js, MERN Stack Fundamentals, Kotlin (basic)

Frontend Engineering:

Accessibility (a11y), Responsive Design, Form Handling & Validation, Internationalization (i18n)

CMS & Product Systems: Akeneo PIM, Umbraco CMS
